

# HITRUST Optimization Program

## HITRUST Optimization provides the following services:

- Program Management
- Policy and process review and remediation
- Portal response documentation for HITRUST controls
- Customer support during Adoption Review and Validation
- Post-certification services
- MyCSF Portal Management

## How HITRUST Optimization Specialists Help:

- **Translate**  
Specific HITRUST requirements and controls are translated into readily actionable tasks.
- **Advocate**  
Directly interface with your HITRUST Assessor to ensure your organization's interests are represented.
- **Support**  
A team of information and cybersecurity experts is made available to support your HITRUST certification efforts.
- **Tailor**  
Security program documentation is tailored to meet HITRUST standards effectively.
- **Collaborate**  
Work directly with all business units involved in the HITRUST certification, including IT, engineering, compliance, HR, and legal.

## Streamline HITRUST Certification with Comprehensive Services

Intracorp Health's HITRUST Optimization Program is a comprehensive suite of services designed to streamline your organization's HITRUST certification journey. Whether you're working with Intracorp Health or another Assessor firm, our program helps you navigate the complexities of HITRUST compliance. While the Assessor focuses on the audit, assessment, and submission to HITRUST, your organization plays a crucial role. This includes providing essential information, updating policies, and interacting with the MyCSF portal.

These tasks can be daunting for organizations with limited resources or those unfamiliar with HITRUST's requirements. Enrolling in our HITRUST Optimization Program addresses these challenges as we provide dedicated consultants who integrate with your team. These experts tackle the necessary remediation tasks, ensuring a smooth path to certification and significantly reducing the burden on internal resources.

## Improve Your Ability to Meet Deadlines and Mandates

Many organizations are mandated to become HITRUST certified, but few have the resources to meet deadlines. Our HITRUST Optimization Program lessens the burden throughout the certification process, focusing on quality and speed to ensure timely certification.

*Becker's Health recognized Intracorp Health as a top security firm that healthcare organizations are likely to engage for cybersecurity assistance.*

## Our Differentiators

- ✓ One of the longest tenured HITRUST Assessors
- ✓ Our Assessors and consultants partner with organizations to ensure they meet regulatory compliance and risk standards, including NIST, HIPAA, ISO, PCI and state specific laws
- ✓ Recognized for quality submissions and proven methodology
